Periodically the ABS will update or make amendments to the AHECC. These changes are the result of user requests, or to accommodate the Government reporting requirements or general improvement in the quality of the classification. As of 1 July 2007, chapters 8, 16 and 38 were updated in the AHECC with new statistical codes and a number of chapters for typographical amendments.

26/11/2010 Note: Periodically the ABS updates the AHECC. These changes can result from requests from users or exporters, accommodating Government reporting requirements or the ABS improving the overall quality of the classification. Table 2 has been updated to include the correspondence between the statistical codes taking effect from 1 January 2011 and the codes they are replacing.

20/01/2011 Note: The presentation of Table 8 has been updated. Previously the labels for AHECC codes 38089130 and 38089220 were not fully expanded. This meant that the full labels of these two new commodity codes was not being printed. There has also been a correction to spelling in the label for AHECC code 38247.

Note that these changes are to presentation only.

26/11/2010 Note: New codes to monitor the trade in pesticides have been introduced into Chapters 29 and 38. New codes have also been added to Chapter 33, to measure trade in tea tree oil. See the Key of changes for the correspondence of/to new codes.
